UNIVERSITY OF COLORADO
COLORADO SPRINGS

MEMORY CLINIC SCREEN

Available to anyone 55+ interested in having a baseline assessment of their cognition. The screen will help to determine if memory or thinking difficulties are typical or a signal of more serious problem. A baseline assessment is also very helpful for comparison if memory concerns arise in the future.

The Memory Clinic appointment includes a 45-minute assessment, a break while results are reviewed, followed by a discussion of the results and recommendations (total appointment time 2 hours). You will meet with a licensed psychologist and a supervised graduate student clinician during your appointment. The Aging Center also offers more comprehensive evaluations to aid in diagnosis and treatment planning when appropriate.

We can help you determine which option is right for you.

Please call **719-255-8002** to schedule an appointment. You will be asked your household income to determine the reduced fee for the service.

If there is financial hardship, please let us know. No one will be turned away due to inability to pay the service fee.
